During the final walkthrough, the customer should thoroughly inspect all rooms, areas, cabinets, closets, drawers, and built-ins to ensure that:

1. All requested shipment items have been packed, labeled, and prepared to their satisfaction.
2. All last minute/necessary items (mattresses, bedding, lamps, etc.) have been identified and arrangements have been made for these items to be packed by the loading crew.
3. All disassembled items and hardware have been packaged, inventoried, and packed appropriately.
4. All High Value items have been identified, inventoried, and packed appropriately.
5. All Items of Concern (IOC) have been packaged, inventoried, and packed appropriately.
6. All firearms included in the shipment have been documented and packed appropriately.
7. No prohibited or contraband items are present in any carton or container.
